PROFESSIONAL SUMMARY

Computer Science finalist at Chuka University with hands-on web development experience spanning WordPress/Elementor CMS sites, custom-coded front-end projects, and Shopify e-commerce builds. Demonstrates a growing design sensibility through multiple live portfolio sites and real-client maintenance work. Comfortable working with React/Next.js and visual tools such as Figma and Canva, with strong foundational skills in HTML, CSS, JavaScript, and Python. Highly self-driven, detail-oriented, and eager to contribute across client projects within a fast-paced digital agency environment.

KEY COMPETENCIES

WordPress & Elementor • Shopify • React & Next.js • HTML / CSS / JavaScript • Figma & Canva • Adobe Suite (Familiar) • Responsive Web Design • Brand Identity & Social Media Creatives • Website Maintenance & Revisions • Git & Version Control • Python • Technical Documentation • Client Communication • Team Collaboration • Attention to Detail

WEB DEVELOPMENT PORTFOLIO

The Eyes Watch Media — WordPress Website Maintenance

2024–2025 | WordPress, CMS, Client Site

- Maintained and updated a live client WordPress website (theeyeswatchmedia.co.ke), handling content updates, plugin management, and ensuring continuous uptime and performance.
- Liaised with the client on change requests, demonstrating client-facing communication skills aligned with agency workflows.

Zahari Botanicals — Shopify E-Commerce Store

2024–2025 | Shopify, E-Commerce, Product Setup

- Built and configured a Shopify storefront (zaharibotanicals.myshopify.com) for a botanicals brand, setting up product listings, collections, and payment flows.
- Customised the store theme and visual identity to reflect the brand's aesthetic, demonstrating design sensibility within a CMS e-commerce environment.

Jura Photography — Custom Coded Website

2024 | HTML, CSS, JavaScript, Netlify

- Designed and developed a portfolio website (juraphotography.netlify.app) for a professional photographer from scratch — showcasing visual layout skills, responsive design, and attention to brand presentation.
- Deployed and managed hosting on Netlify, handling CI/CD pipeline for continuous delivery.

Photo Classic — Photography Showcase Site

2024 | HTML, CSS, JavaScript, Netlify

- Built photoclassic.netlify.app as a clean, image-forward web experience, focusing on typography, whitespace, and visual hierarchy relevant to creative brand clients.

Puparazzi Pets — Pet Photography Website

2024 | HTML, CSS, JavaScript, Netlify

- Developed puparazzi-pets.netlify.app as a fun, branded site for a pet photography business — creating marketing collateral-style layouts, custom colour palettes, and responsive components.

WORK EXPERIENCE

IT Support Specialist — Internship — Kenya Airports Authority (KAA)

May 2025 – July 2025 | Nairobi, Kenya

- Supported configuration and maintenance of enterprise systems across multi-department environments, building strong discipline in documentation, client service delivery, and technical communication.
- Trained staff on enterprise applications (ERP/SAP, VPN, email platforms) and ICT policies — developing structured communication and onboarding skills transferable to client project delivery in a digital agency.
- Maintained clear incident logs, SOPs, and technical documentation — demonstrating the organised, detail-oriented work ethic required for client project tracking and revisions.

IT Assistant — Attachment — Hospital ICT Department

July 2024 – August 2024 | Kenya

- Delivered first-level technical support and system configuration across a busy multi-department facility, reinforcing adaptability, accountability, and attention to quality under pressure.
- Supported cybersecurity and data integrity measures, reflecting responsible technology design principles applicable to web platforms and client data.

EDUCATION

BSc Computer Science — Chuka University

2022 – 2026 (Expected Graduation) | Kenya

- Relevant coursework: Software Engineering, Web Technologies, Data Structures & Algorithms, Database Systems (MySQL), Operating Systems, Computer Networks.

Data Science & AI Program — ALX Africa

2023 – 2024 | Certification

- Completed an intensive programme in data science, AI fundamentals, and applied Python programming.
